Getting Started *With Your Online Account*

Access your online account powered by Alarm.com by going to www.alarm.com/login and entering your login and password. If this is the first time you are logging into your account, use your provided login and temporary password and complete the email verification process. Once logged in, you can easily change your password under the Profile tab > Login Info menu.

The following provides a quick tour of some key features:

Security Summary

1 System Summary

> Click on one of the icons in the *Current Arming State* panel to Disarm, Arm (Stay), or Arm (Away).

> View recent arming/disarming and system events.
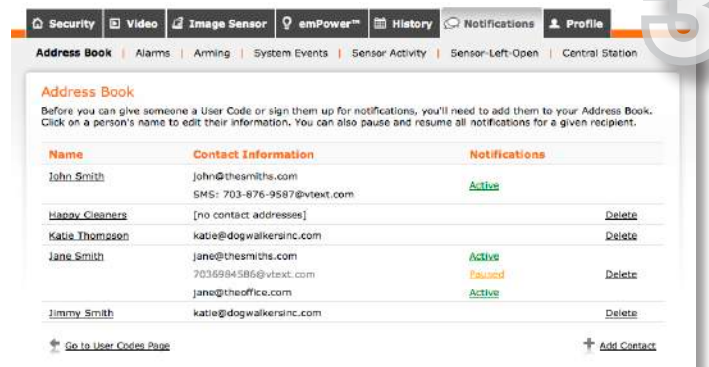

> View sensor status* and events.*

2 Turn on More Features

> Easily activate and modify alarm and power notifications, address book, arming reminders and sensor activity* or sensor-left-open notifications.

> Click on an icon to modify or activate that feature. (Activated features are shown with a green checkmark.)

User & Contact Management

3 Add Contacts to Address Book

> Go to *Notifications > Address Book*.

> Click Add Contact to add a system user. Enter the user's name and relevant email and text message information.
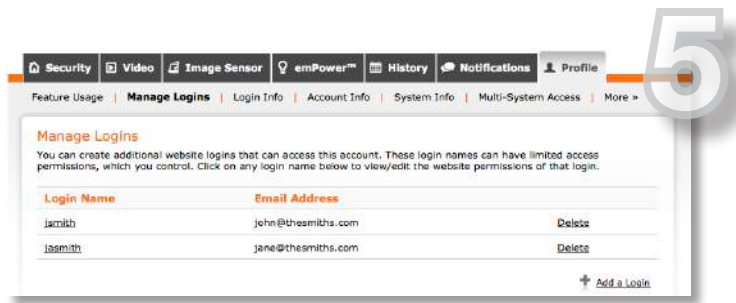

4 Set Security Panel User Codes

> Go to *Security > User Codes*.

> Enter a code for each user who should be able to arm/disarm your security panel.

powered by **ALARM.COM**®

5   Create Website User Logins
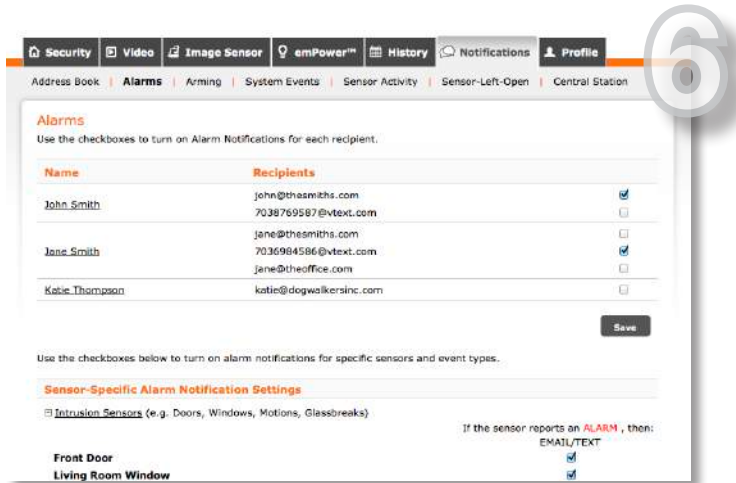

> Go to *Profile > Manage Logins*.

> Click Add a Login to add website users to your account.

> These users can also login via the Alarm.com mobile apps and mobile site. Go to *Profile > Mobile Access* for more information.

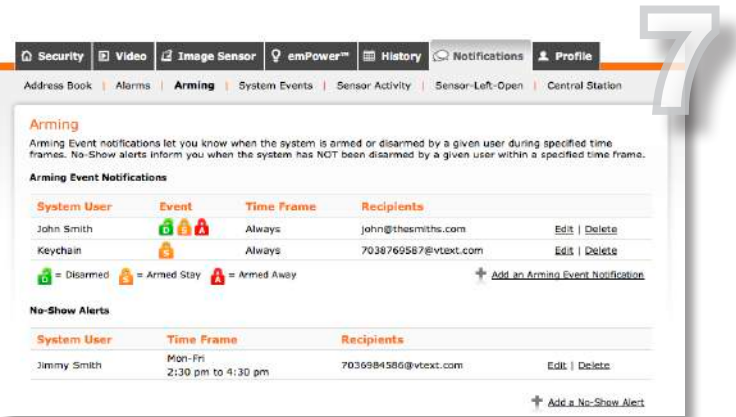

Notification & Reminder Settings

6   Alarm Notifications

> Go to *Notifications > Alarms*.

> Use the check boxes to select which contacts should be notified in the event of an alarm.

7   Arming Event Notifications and No-Show Alerts

> Go to *Notifications > Arming*.

> Click Add an Arming Event Notification to select the contacts you'd like to be notified when your system is armed or disarmed.

> Click Add a No-Show Alert to set up an alert notifying you if a certain person did not disarm your security system during a specific time period.

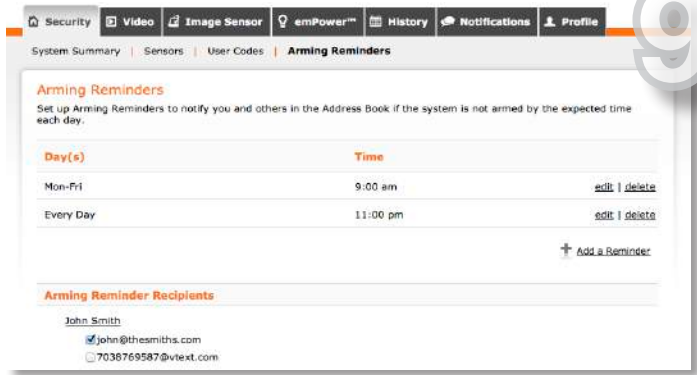

8   System Event Notifications

> Go to *Notifications > System Events*.

> Use the check boxes to select which contacts should be notified about selected system events, such as a power failure or low battery.

powered by **ALARM.COM**®

9 Arming Reminders

> Go to *Security > Arming Reminders*.

> Click Add a Reminder to set up an arming reminder that lets selected recipients know if the system is not armed by an expected time.

10 Sensor Activity Notifications* (everyday events)

> Go to *Notifications > Sensor Activity*.

> Click Create a New Notification to configure notification rules for non-alarm sensor activity.

11 Sensor-Left-Open Notifications

> Go to *Notifications > Sensor-Left-Open*.

> Click Create a New Notification to configure notification rules to find out when doors or windows have been left open during specific time periods.
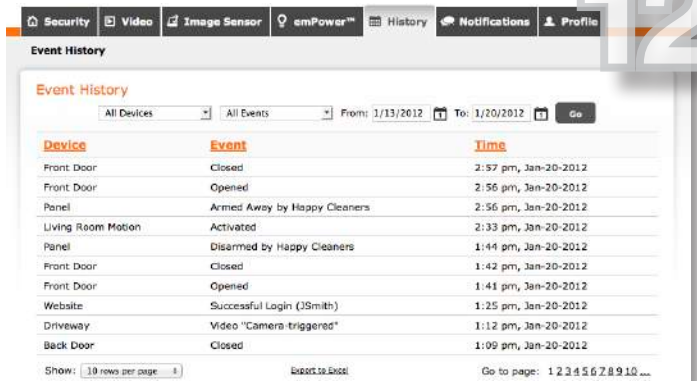

Searchable System History

12 Event History

> Go to the *History* tab.

> Use the menus to filter by device, event type, and date range.
